BOURBON

WILD TURKEY HONEY WHISKEY 10

Kentucky

A sweeter side of Kentucky Bourbon, the exceptionally smooth American Honey combines deep-rooted tradition with a decadent modern twist.

ELIJAH CRAIG SMALL BATCH 13

Kentucky

Expertly aged in charred oak barrels, this award-winning Small Batch Bourbon is known for its signature warm spice an subtle Smokey flavors.

BULLEIT BOURBON 14

Kentucky

Bulleit is one of the fastest-growing whiskeys in America. This whiskey has a spicy character with maple, oak and nutmeg undertones.

MAKER'S MARK 14

Kentucky

Maker's Mark offers a rich and full-bodied profile, seamlessly blending flavors of rye, warm spice, barley malt, and subtle nut oils. The finish is smooth and lingering, with sweet hints of butterscotch and vanilla.

GREAT JONES 16

New York

Crafted in small batches from 100% New York grown corn, malted barley and rye that are mashed and cut with Catskill Mountain water. Aged in American Oak barrels with a perfectly balanced vanilla and light pepper finish.

KNOB CREEK 16

Kentucky

A robust oak aroma with hints of vanilla and caramel.

WOODFORD RESERVE 16

Kentucky

Comprised of over 200 detectable flavor notes, from bold grain and wood to sweet aromatic spices and fruits.

ANGEL'S ENVY 18

Kentucky

With its warm gold color, infused with reddish-amber and copper undertones, this bourbon radiates warmth. The port wine barrel finish adds an intricate layer of flavor, weaving subtle nuances into the whiskey's fabric, creating a rich and refined tasting experience.

WESTERN RESERVE 25

Ohio

Amber color, aromas and flavors of white chocolate, pecan pie and cereal milk.

WIDOW JANE SMALL BATCH 29

New York

This classic bourbon has a viscous mouthfeel and flavors of vanilla, spice maple, cinnamon, orange and almond.

RYE

REDEMPTION A3) 12

Kentucky

Strong notes of rye spice along with vanilla and caramel flavors.

ROUGH RIDER BULL MOOSE A3) 12

Long Island

This bourbon concludes with a lingering finish, leaving the palate saturated with rich vanilla flavors, subtly balanced by bold espresso and decadent cocoa notes.

HIGH WEST DOUBLE RYE WHISKEY A3) 14

Utah

Aromatic notes of mint, clove, cinnamon, and dark chocolate. Herbal tea, wildflower, and honey flavors blend with warm spices, sweetening to cinnamon and subtle anise.

GREAT JONES A3) 16

New York

Fudge, toffee and honey – both sweet and earthy notes mixing into one.

KNOB CREEK RYE 16

Kentucky

A bold and rich whiskey with a full-bodied flavor profile. Offering notes of oak, char, dried fruits and citrus.

HUDSON WHISKEY A3) 17

New York State

Do the rye thing! A peppery start with notes of honey, cinnamon and a lingering buttery finish.

VODKA

DEVIL'S SPRINGS A1) 6

Maryland

Devil's Springs Vodka is somewhat notorious for its extremely high proof. It's also perfect for creating your own flavored vodkas. Experiment with lavender, citrus rind, herbal teas, chili peppers, horseradish and dried fruits.

BLUE ICE 8

Idaho

Velvety smooth, this whiskey envelops the palate with sweetness and subtle oiliness. Its heavy body provides depth, balanced by a crisp, gentle bite. The finish warms subtly, leaving no harshness or burn.

SPRING44 A1) 8

Colorado

Initially slightly sweet, the aroma settles beautifully into hints of slate and rainwater. Nicely dry up front with an essence of grain.

CROP MEYER LEMON 9

California

A refreshing twist on citrus vodka, it is the perfect balance between the sweet and tart flavors of a Meyer lemon.

ALB 10

Albany, NY

Gluten free, obsessively filtered, clean polished finish.

TITO'S HANDMADE 10

Texas

Tito's Handmade Vodka has notes of roasted corn and white pepper. Distilled from corn and is certified Gluten-Free.

DEATH'S DOOR A1) 11

Wisconsin

This refined spirit boasts a velvety texture, balanced by subtle sweetness. As it warms, a gentle tingling sensation dances on the tongue, culminating in a smooth, satisfying finish.

ZYR 11

Illinois

Velvety smooth with a clean, fresh and slightly sweet finish. (gluten-free)

BARR HILL VODKA 20

Vermont

Rich honey flavors unfold, accompanied by delicate vanilla undertones. The finish is crisp and refined, with a subtle peppery warmth that leaves a lasting impression.

HARRIDAN 20

New York

Handcrafted in small batches in Burdett, New York. Gluten free and distilled from locally grown corn. Very soft on the nose with a creamy mouthfeel and a hint of pepper.

RUM

TRADER VIC'S SILVER 8

California

Offers a smooth, crisp flavor with subtle notes of citrus, vanilla, and a hint of tropical sweetness.

TRADER VIC'S SPICED 8

California

Bold notes of baking spice, vanilla, and other botanicals, giving it a unique flavor profile. It's spicy yet smooth, with just the right amount of sweetness.

CAPTAIN MORGAN COCONUT 9

Virgin Island

Sweet, delicate and creamy taste of fresh coconut with a background of citrus and tropical fruit balanced with notes of molasses.

CAPTAIN MORGAN SPICED 9

Virgin Island

Made from molasses that is distilled in a continuous still and aged in oak barrels for up to one year.

WHALERS 9

Kentucky

Rich and smooth traditional, Hawaiian heritage dark rum.

MONTAUK SUNBURN CINNAMON 9

New York

Warm and tangy treat for the tongue and taste buds. Using only the finest spirits and hand-selected natural flavors, Sunburn awakens the senses, leaving you with the warm afterglow of the Montauk sunset.

OWNEY'S 13

New York

This New York rum showcases a rich profile, blending sugarcane sweetness with warm baking spices. Nuances of nuttiness add depth, while mineral undertones provide a crisp, refreshing finish.

MONTAUK NAVY STRENGTH [1] 15

New York

Offers a bevy of aromatic notes including dried fruit cake, leather, oak spice, cinnamon, clove, and vanilla. On the palate, as expected, molasses notes exhibit significant complexity — from burnt and sweet caramel.

MONTANYA 4 YEARS 23

Colorado

This aromatic spirit has a natural swetness and notes of vanilla, cardamom, ginger, honeysuckle and white flowers with a spicy rye finish.

BRANDY

CONCIERE AMERICAN DISTILLING CO. 6

Utah

A delicately clean and dry brandy with notes of caramel, wine, oak and dried apricot.

KORBEL VSOP 7

California

Aged exclusively in premium oak barrels for over two years and has the richness, complexity, and smoothness best savored from a snifter.

ST. GEORGE APPLE BRANDY 21

California

The nose is greeted with aromas of crisp apple cider, lemon and allspice, finishing with refreshing notes of mint and clove.

LAIRD'S 10TH GENERATION APPLE BRANDY 30

New Jersey

Laird's apple brandy has a rich and sweet flavor with notes of cinnamon, star anise and clove.

GERMAIN-ROBIN 7 YR. AGED 31

California

The nose is met with oak spice and fruit, the fruit forward notes of apple and pear are lightly accented with honeysuckle and cherry blossom, giving way to a rich apricot and peach. Well integrated toasted oak gives light accents of cinnamon and brown sugar.

GERMAIN-ROBIN FLAGSHIP BRANDY XO 1) 38

California

Germain-Robin highlights the flavors that make California Brandy one of the most sought after aged spirits. Germain-Robin is met with a nose of oak spice and fruit.

GIN

AVIATION 10

Oregon

Made from a blend of 7 botanicals, including juniper, cardamom, lavender, anise seed, sarsaparilla, coriander and dried orange peel.

BLUECOAT 10

Pennsyslvania

Bluecoat presents a complex, yet light and refreshing citrus blend, comprising primarily of sweet citrus and lemon peels.

PERRY'S TOT NAVY STRENGTH 10

New York

Primarily bitter orange driven warmth, with a hint of herbaceous juniper and pine resin.

PINE BARRENS 11

New York

Distilled from Local Long Island Potatoes, 28 Fruits, Botanicals and aged at least 6 months in X-Pine Barrens American Single Malt Casks.

BLUECOAT ELDERFLOWER 13

Pennsylvania

The infusion of organic elderflower through a maceration process gives a light floral taste and heady fragrance.

DOROTHY PARKER – SMALL BATCH 88 14

New York

A blend of traditional and contemporary botanicals including juniper, elderberries, citrus, cinnamon, and hibiscus.

GREENHOOK GINSMITHS 14

New York

Nine botanicals are added to a base spirit distilled from organic grown wheat. The uniqueness of the distillation process creates a bright, vibrant and nuanced gin that is a perfect balance between herbal, floral and citrus components with elderflower, cinnamon and chamomile.

ST. GEORGE 14

California

A forest in your glass – profoundly lush and aromatic, with ultra-woodsy notes of Douglas fir, California bay laurel, sage, and a hint of citrus.

GREENHOOK GINSMITHS OLD TOM 16

New York

Greenhook's full-bodied expression is crafted from pot distilled corn, juniper, and botanicals inspired by the spice trade of the 1900's.

BROOKLYN GIN 17

New York

Distilled using locally purchased fruit and a base spirit made from 100% American corn that is sourced from small farms.

WINES

DEAR GUEST,

please enjoy this selection of organic and sustainably produced wines. From Barbera from Mendocino to Zinfandel from Lodi, from reds and whites to rosés and sparkling wines – whatever goes into your glass, all wines are made in the USA.

This wine selection was curated by Mark Guillaudeu, the Best USA Sommelier 2022.

OVERVIEW WINES

- → BY THE GLASS
- → BOTTLED
  - → SPARKLING
  - → WHITE
  - → ROSÉ
  - → RED

VINEYARDS OF STYLE

SUSTAINABLE

While very much the buzz- and by-word in the world of wine amidst a warming climate, unfortunately the term ‚sustainable' is poorly regulated with very many competing certifications nationally and worldwide. The best of them fall very much in line with the styles outlined below, while the worst of them offer little more than greenwashing while changing very little materially when it comes to carbon emissions or earth-friendly farming. The best of the best are renegades like Steve Matthiasson and Mimi Casteel, wary of the many regimes imposed by things like organic certification yet still farming with both eyes on the earth and long term health of the land.

ORGANIC

Organic farming is quintessentially about what isn't done in the vineyard – certain synthetic pesticides, herbicides, and fungicides are banished from the vineyard in favor of natural or organic alternatives – using manure or nitrogen-replenishing cover crops instead of petroleum-derived nitrogen fertilizer, for example. Because they do not use these broad-spectrum chemicals organic farming is much kinder to the land and the life within and on it, but can at times mean a larger carbon impact because of the need to spray more frequently than with the more potent (and destructive) synthetic versions.

BIODYNAMIC

Originally outlined by philosopher Rudolf Steiner in a series of lectures in 1926, then expanded on and systematised by Maria Thun in the 1940s. Biodynamics is a further step beyond organics, not only regulating what may not go into the vineyard, but also further requiring certain ancient homeopathic remedies to promote vigor and fight disease. It can often seek a natural harmony with the cycles of the stars and planets, but its impact on wine quality is now undeniable, with multiple studies confirming that biodynamic wines have greater complexity besides a more profound sense of place.

REGENERATIVE

Incorporating elements of both organic and biodynamic farming, the principles behind regenerative farming minimize the negative impact of farming but actually use that farming as a way of not only restoring but enhancing the land, leaving it in a healthier, more biodiverse and long-term healthier state than it would have been if left fallow.

NO-TILL

Often a part of regenerative, organic, or biodynamic viticulture no-till refuses to disturb the soil with its concomittant destruction of the complex webs of fungal, microbial, and inverterbrate life therein. It has been documented that should every acre of agricultural land in the world convert to this system, the carbon captured and stored by that life in the soil is capable of absorbing more than our total annual output of CO_2 – which is to say that through no-till farming we do not lack the means to end global warming – we lack only the will. A farming method for the brave and unafraid, these yield some of the most balanced, earth-forward wines around.

DRY-FARMED

Dry farming is a close cousin of no-till farming, in that it refuses to deplete natural reservoirs through irrigation and instead grows vines in ways and places that allow them to use only the natural rainfall of their region. Expect wines of greater concentration and sense of place, as the vines struggle a bit more than when irrigated and yield higher complexity as a result.

"NATURAL" WINE

The ever-buzzy and doozy of a category, natural wine often (but not always) means wine fermented with native yeasts (from the vineyard, not a laboratory), with minimal oak, oftentimes minimal natural sulfur, and typically from vineyards farmed in greater harmony with the earth. Beyond those broad guidelines, it is a vast and open country that embraces some of the greatest wines of the world (like Domaine Romanée-Conti) and is ever more popular from California to New York and beyond.

All prices are US dollar, excluding tax.

BY THE GLASS

SPARKLING

SPARKLING RIESLING

HERMANN J WIEMER BRUT — 0.2L — 22

METHODE CHAMPENOISE ESTATE
SENECA LAKE, NEW YORK

The newest release of Extra Brut! This wine is made with 100% Riesling. Showing notes of lemon curd and yellow apple, this wine has refreshing acidity with fine bubbles and subtle minerality.

SPARKLING ROSÉ

CHEPIKA — 0.2L — 19

PETILLANT NATUREL
FINGER LAKES, NEW YORK

This varietal Catawba pét-nat is produced by Pascaline Lepeltier MS and winemaker Nathan Kendall in the heart of New York's Finger Lakes region. Mouthwatering, tart, and low-ABV, this effervescent bottle bursts with flavors of stone fruit and citrus. This bottle is to be considered the perfect early afternoon wine.

WHITE

SAUVIGNON BLANC

BONTERRA — 0.2L — 12

BONTERRA ORGANIC ESTATES
MENDOCINO, CALIFORNIA

This lively Sauvignon Blanc opens with the unmistakable aroma of grapefruit, woven over an exotic thread of kumquat, cherimoya, mango and passionfruit. The expressive nose gives way to a crisp and lively palate, culminating in a mouthwatering finish.

RIESLING

BROOKS — 0.2L — 15

BROOKS ESTATE VINEYARD
WILLAMETTE VALLEY, OREGON

White peach, Starfruit, Peach Blossom, Meyer Lemon, Pineapple, Tangerine. This dry Alsatian blend pairs perfectly with sunshine. Expressive floral and stone fruit notes flow into a zippy, Meyer lemon finish.

PINOT GRIGIO

NOBLE VINES — 0.2L — 14

NOBLE VINES WINERY
MONTEREY COUNTY, CALIFORNIA

This cheerful Pinot Grigio exhibits bright aromas of freshly-squeezed citrus, green apple, pear and orange blossom. Medium-bodied with a round mid-palate and crisp acidity, this wine offers distinguished flavors of lemon curd, white peach, ripe cantaloupe and a touch of minerality on the palate, before extending into a lingering finish.

CHARDONNAY

LINDA VISTA — 0.2L — 19

MATTHIASSON VINEYARD
NAPA, CALIFORNIA

Golden Delicious apples, yellow peaches, musk melon, and honey greet the nose and persist through to the palate. Medium acidity is balanced by pleasant fleshiness, finishing very clean with a hint of minerality.

ROSÉ

ELIZABETH SPENCER — 0.2L — 16

ROSE OF GRENACHE
MENDOCINO, CALIFORNIA

Grown on the famed Talmage Bench outside of Ukiah, this old-vine, organically-farmed Grenache is gently pressed and yields subtle white cherry and tropical fruits in the glass. A perfect aperitif with the crispness for ceviche and the structure for beef tartare.

RED

PINOT NOIR

BROOKS — 0.2L — 15

HOPEWELL ESTATE
WILLAMETTE, OREGON

Biodynamically no-till dry-farmed — rarely do the farming stars align in such a way! The team at Brooks has been pushing the envelope for decades, and now produce a world-class lineup of brilliant Pinots among many others. Clones come into play with their wines more than many — and the power of Dijon clones 777 and Pommard come into the foreground here, with subtle spice and perfume from the old Swiss (and Willamette!) Wadenswil clones providing lift and balance. Think black cherries meet mace and rooibos tea in a forest, swaddled in elegance.

PORTER CREEK — 0.2L — 26

RUSSIAN RIVER ESTATE
SONOMA, CALIFORNIA

Biodynamic since long before it was in vogue, at the time when the rest of the Russian River was chasing ripeness and extraction George (and later, Alex) Davis stayed the course, making wines in a classic, restrained, old-world style. This wine comes from one of the original vineyards planted by Alex's father and now grows 45+ year old Chardonnay and Pinot Noir.

ZINFANDEL

END OF NOWHERE — 0.2L — 14

PHANTOM LIMB
SIERRA FOOTHILLS, CALIFORNIA

Carbonic Zinfandel is certainly not your typical California Zinfandel. A far cry from the heavy, jammy, and hot stereotype, this is refreshing and delicious. Sourced from the Baldinelli Vineyard in Shenandoah AVA, the soils are sandy loam.

CABERNET

ALEXANDER VALLEY — 0.2L — 15

ALEXANDER VALLEY VINEYARDS
SONOMA, CALIFORNIA

This is classic Alexander Valley Cabernet Sauvignon with medium body, great fruit flavors and smooth, structured tannins. In the glass there are lush flavors of cherry, cassis, blackberry, and chocolate. This is an elegant Cabernet Sauvignon with great balance and a long, lingering finish.

GRENACHE BLENDS

CEP — 0.2L — 19

PEAY VINEYARDS
SONOMA COAST, CALIFORNIA

The Peay's began farming this remote parcel organically in Annapolis, just a few miles off the Pacific coast, in the early 1990s. A fog-kissed site that grows some of the coldest climate syrah and roussanne in north America, their Chardonnays routinely give Puligny-Montrachet a run for its money in crystalline precision and purity of fruit. This wine gives you the best of both worlds — French style and restrained California fruit.

BOTTLED SPARKLING WINES

SPARKLING

SPARKLING RIESLING

PÉTILLANT NATUREL OF CATAWBA (PET NAT)

0.75 L **55**

CHËPÍKA
FINGER LAKES, NEW YORK

A collaboration between world-renowned sommelier Pascaline Lepeltier and Nathan Kendall, the Chëpika project highlights the possibilities that come when our idea of fine wine is expanded to include native and hybrid varieties — all of which can be farmed with much less intervention than classic European vinifera varieties. While a typical vineyard might be sprayed anywhere from 5—15 times during the season, these native grapes can often make it to harvest without a single treatment. While little-known today, Catawba was the backbone of the American wine industry in the 19th century and produced the first American wines awarded on the world stage.

ROSE OF PINOTS

0.75 L **75**

DUNDEE HILLS
WILLAMETTE VALLEY, OREGON

Jason Lett's experiment in pétillant naturel (fermented once as opposed to the more famous two-fermentation style of Champagne) blends Pinot Noir, Pinot Blanc, and the Swiss Chasselas grape for a wine as much about easy quaffing and red cherry fruit as it is about savoriness and earth.

VIN CALAVERAS

0.75 L **130**

MONDEUSE
SIERRA FOOTHILLS, CALIFORNIA

From the perennially anti-establishment Matthew Rorick this sparkling Mondeuse (an old Savoie/Swiss grape better known for being a member of Syrah's family tree), this wine gives some of the best sparkling wines a run for their money with lifted white floral aromas behind salty, limestone minerality.

ANALEMMA

0.75 L **180**

ATAVUS VINEYARD
BLANC DE NOIRS
COLUMBIA GORGE, OREGON

From the biodynamic Analemma estate in the Columbia Gorge, this 100% pinot noir is made with Champagne clearly in mind. Resting on lees over four years as many of the finest grower-producer offerings, the Atavus shows that American sparkling wine is entering a new age of refinement — and deliciousness!

GRANDE CUVÉE MÉTHODE CHAMPENOISE

0.75 L **185**

THE RACINES
SANTA RITA HILLS
SANTA BARBARA, CALIFORNIA

No surprise that when one of the great Champagne growers, Rodolphe Péters, came to Santa Barbara that he found a particularly cool site on which to make world-class sparkling wine. This is one of the finest bubblies made in California, with its Champenois pedigree on full display. 100% organically grown Chardonnay.

50TH ANNIVERSARY CUVEE CARNEROS

0.75 L **245**

ZD WINES
NAPA VALLEY, CALIFORNIA

To commemorate 50 years of organic farming in the heart of Napa, ZD produced this blend of Chardonnay and Pinot Noir from their estate in Carneros and aged it for almost 6 years before release. A healthy portion of wood and a high portion of Pinot Noir make this a wine to rival the rich texture and generous toast of classic houses like Alfred Gratien or even Bollinger.

RACINES

GRANDE RESERVE CUVEE

0.75 L **180**

SANTA RITA HILLS
SANTA BARBARA, CALIFORNIA

The Grand Reserve cuvée is a sparkling Blanc deBlanc traditional method consisting of 100% Chardonnay. The 2018 vintage base also includes 15% Reserve wines from the 2017 harvest, and blends various terroirs from the Sta Rita Hills.

BOTTLED WHITE WINES

WHITE

SAUVIGNON BLANC

HAPPY CANYON 0.75L. 48
STAR LANE VINEYARD
SANTA BARBARA, CALIFORNIA

Biodynamically farmed in an area of Santa Barbara better known for its Bordeaux grapes than its pinot noir, the Star Lane Sauvignon Blanc has just a touch of Semillon's green fig and creamy texture, backed up by white grapefruit and explosive stone fruit.

BONTERRA 0.75L. 60
BONTERRA ORGANIC ESTATES
MENDOCINO, CALIFORNIA

This lively Sauvignon Blanc opens with the unmistakable aroma of grapefruit, woven over an exotic thread of kumquat, cherimoya, mango and passionfruit. The expressive nose gives way to a crisp and lively palate, culminating in a mouthwatering finish.

ELIZABETH SPENCER 0.75L. 78
SPENCER WINERY
MENDOCINO, CALIFORNIA

For many years now, California producers of Sauvignon Blanc have shunned the crisp, green, herbaceous aromas for which the variety is known in France. In the cooler hills of the Talmage Bench outside Ukiah in Mendocino, those delightfully herbal aromas are embraced – but never far from the California backbone of rich tropical and stone fruit.

ARNOTS-ROBERTS 0.75L. 95
RANDLE HILL VINEYARD
YORKVILLE HIGHLANDS, MENDOCINO, CALIFORNIA

Just about the closest you can come to Sancerre in style, this is a steely, focused Sauvignon Blanc from the high-elevation vineyards of the Yorkville Highlands in Mendocino. Think perfectly ripe peach meets lemon verbena with a salty undercurrent and you're on the right track, this wine is enriched by subtle toast and rounded texture from its time spent in old French oak.

OAKED SAUVIGNON 0.75L. 95
ZD WINES
NAPA VALLEY, CALIFORNIA

One of the early adopters of organic farming in the Valley back in the 1990s, this is a classic Napa Fumé Blanc, with ripe tropical fruit held in perfect tension with toasted oak and vanilla. Bright acidity for the start of the meal, weight and texture to carry through to the end this wine is an incredibly versatile partner at table.

RIESLING

BROOKS 0.75L. 62
BROOKS ESTATE VINEYARD
WILLAMETTE VALLEY, OREGON

White peach, Starfruit, Peach Blossom, Meyer Lemon, Pineapple, Tangerine. This dry Alsatian blend pairs perfectly with sunshine. Expressive floral and stone fruit notes flow into a zippy, Meyer lemon finish.

PINOT GRIGIO

PINOT GRIS 0.75L. 85
EYRIE VINEYARD
DUNDEE HILLS, OREGON

This is classic Alexander Valley Pinot Gris with medium body, great fruit flavors and smooth, structured tannins. In the glass there are lush flavors of cherry, cassis, blackberry, and chocolate. This is an elegant Pinot Gris with great balance and a long, lingering finish.

CHARDONNAY

LINDA VISTA 0.75L. 82
MATTHIASSON VINEYARD
NAPA, CALIFORNIA

Golden Delicious apples, yellow peaches, musk melon, and honey greet the nose and persist through to the palate. Medium acidity is balanced by pleasant fleshiness, finishing very clean with a hint of minerality.

PEAY 0.75L. 95
PEAY VINEYARDS
SONOMA COAST, CALIFORNIA

The Peay's began farming this remote parcel organically in Annapolis, just a few miles off the Pacific coast, in the early 1990s. A fog-kissed site that grows some of the coldest climate syrah and roussanne in north America, their Chardonnays routinely give Puligny-Montrachet a run for its money in crystalline precision and purity of fruit. This wine gives you the best of both worlds – French style and restrained California fruit.

DIERBERG 0.75L. 95
DIERBERG VINEYARDS
SANTA MARIA VALLEY, CALIFORNIA

Biodynamically farmed, the Dierberg's have been making cool-climate Chardonnay and Pinot Noir since the late 1990s. Expect all that the Santa Barbara salt winds can bring with tropical pineapple fruit and well-balanced toasty oak.

DOMAINE ANDERSON 0.75L. 115
DOMAINE ANDERSON ESTATE
ANDERSON VALLEY, MENDOCINO, CALIFORNIA

Domaine Anderson is the California arm of the great Louis Roederer house, the single most important biodynamic farmer in all of Champagne. Their cool, coastal property – heavily influenced by the fog that rolls in off the Pacific just a few miles away – yields a style of Chardonnay that has much more in common with the wines of Burgundy than it does with the riper expressions found further south in California. Chiselled acidity and a core of golden apple fruit and well-balanced, toasty oak make this a versatile wine for any and every occasion.

PORTER-BASS 0.75L. 120
RUSSIAN RIVER VALLEY ESTATE
SONOMA, CALIFORNIA

From a cooler pocket in the Russian River only nine miles from the Pacific ocean, these lean (or should we stay "classically-styled"?) wines from a vineyard planted in the early ,80s, these are a glimpse into the more sensible, balanced future California can still achieve when the pursuit of fruit is abandoned in favor of poise and harmony.

AFFINITÉS 0.75L. 130
NICOLAS-JAY ESTATE
WILLAMETTE VALLEY, OREGON

From the biodynamic, owner-operated Bishop's Creek vineyard in Yamhill-Carlton and a touch of fruit from the cooler, wind-swept Eola-Amity Hills, this is as Burgundian as American Chardonnay can get: all flint and toast with a soft crème fraîche finish, all crisp golden fall apples and white blossom. Brilliant acidity drives the long finish. This wine can serve just as well at the start of the meal as it can throughout.

ADELSHEIM STAKING CLAIM 0.75L. 150
CHEHALEM VINEYARD
WILLAMETTE VALLEY, OREGON

One of the second generation of Willamette Valley winegrowers, the style of Chardonnay at Adelsheim has finally come into its own. Using Burgundian clones and older vines in a fresher style mean these wines show in the glass like Chassagne-Montrachet with all its bright fruit and flinty minerality.

PORTER CREEK 0.75L. 160
GEORGE'S HILL VINEYARD
RUSSIAN RIVER VALLEY, CALIFORNIA

Biodynamic since long before it was in vogue, at the time when the rest of the Russian River was chasing ripeness and extraction George (and later, Alex) Davis stayed the course, making wines in a classic, restrained, old-world style. This wine comes from one of the original vineyards planted by Alex's father and now grows 45+ year old Chardonnay and Pinot Noir.

VERMENTINO

TENDU 0.75L. 65
MATTHIASSON VINEYARD
DUNNIGAN HILLS, CALIFORNIA

Bright and tangy, this wine from rockstar winemaker Steve Matthiasson carries with it all the beautiful texture and elevated stone fruit of the finest Ligurian examples. Dense but not weighty, with crisp acidity to balance and refresh.

TROUSSEAU

TROUSSEAU GRIS 0.75L. 85
JOLIE-LAIDE
SONOMA COUNTY, CALIFORNIA

Arguably the most iconic representation of this oft-underrepresented grape in California, Jolie-Laide's Trousseau Gris is equal parts orange, rosé, and red wine – a concordium of complexity fit for all occasions at table and none, suited as much to quiet sunset contemplation as vivacious ining room table convivacity. Layered and nuanced, this wine is a vision of the California yet-to-come, the sweetness of our sun against the savour of our soils.

VIOGNIER

VIOGNIER 0.75L. 105
PEAY VINEYARDS
SONOMA, CALIFORNIA

From the fog-laden hills of Annapolis comes one of the most chiseled, precise and subtly floral examples of California viognier. With well-balanced oak, this wine is as much about perfume as it is about peaches and toast – with a fine, salty minerality to back.

CHENIN BLANC

HOPE WELL 0.75L. 121
EOLA-AMITY HILLS
WILLAMETTE VALLEY, OREGON

Mimi Casteel (of the family behind Bethel Heights) is the most sophisticated, eco-conscious, and precise farmer of grapes – and arguably, any crop – in the country. Her Hope Well property is an engineered ecosystem – where other farmers use chemicals and additives, Mimi uses carefully chosen forms of life for everything from moving minerals between layers of the soil (instead of tilling) to keeping the weeds at bay (dwarf sheep herded by a trained Alpaca). Think of her farming as beyond biodynamics, beyond no-till, and even beyond regenerative – yet it delivers some of the most intricate and compelling wines I've tasted. Chenin Blanc and Pinot Noir have become her loves in the vineyard and this gorgeous red apple, chamomile laden wine shows how inspired by – but not beholden to – the wines of Vouvray she is. One of the absolute best Chenin Blancs made outside of France.

BOTTLED ROSE WINES

ROSÉ

ELIZABETH SPENCER 0.75 L 40

ROSE OF GRENACHE
MENDOCINO, CALIFORNIA

Grown on the famed Talmage Bench outside of Ukiah, this old-vine, organically-farmed Grenache is gently pressed and yields subtle white cherry and tropical fruits in the glass. A perfect aperitif with the crispness for ceviche and the structure for beef tartare.

ROSÉ OF CATAWBA 0.75 L 55

CHËPÍKA
FINGER LAKES, NEW YORK

The name chēpika comes from the Lenape word for "roots". Lenape was the language spoken by the Delaware tribe of Native Americans. The Delaware grape variety was a major component of the world-renowned sparkling wines that emerged from the region in the 1800s, along with the Catawba grape, and others. These grape varieties are currently used predominantly in the mass production of sweet table wines and fruit juices. The chëpika sparkling wines are crafted in the ancestral method, relying exclusively on natural yeasts while keeping total sulfur under 10pm. The Delaware and Catawba grapes are grown organically and the wines are created without the use of modern technology.

BLOOMER CREEK 0.75 L 58

BARROW VINEYARD RIESLING (AMBER)
FINGER LAKES, NEW YORK

The only certified organic producer in the Finger Lakes, this is Riesling very much in the style of the Alsatian greats like Domaine Zind-Humbrecht — full and savory, carefully farmed and fermented with wild yeast for added complexity, redolent of wildflower and the spiced flavors of fall.

THE FLOWER 0.75 L 68

IDLEWILD
BARBERA/DOLCETTO/
NEBBIOLO, MENDOCINO, CALIFORNIA

Inspired many times by the flavors of Piemontese reds growing up and starting out, Sam Bilbro took the ultimate plunge and now makes wines from organic vineyards in Mendocino exclusively from Piemontese varieties, showing the beautiful diversity and potential of these cool hills in northern California.

VIN GRIS OF PINOT NOIR 0.75 L 100

ROBERT SINSKEY VINEYARDS
CARNEROS,
NAPA VALLEY, CALIFORNIA

The Robert Sinskey estate has been farming biodynamically since before it was a household term — all the way back to 1991. They view the entire farm as a complex, cohesive, living unit — great wine being but one part of it. Their vin gris is legendary for its texture and refinement — making the absolute best of the cool fog-influenced vineyards in Carneros and the intense minerality and balance that comes from their land-driven ecology. Expect a bit more richness in this "vin gris" rather than rosé style — this is not your crush it and forget it rosé, but a serious wine for the table.

ROSÉ OF MENCÍA 0.75 L 115

ANALEMMA WINERY
COLUMBIA GORGE, OREGON

Regenerative and biodynamic from the outset, Analemma is one of the most exciting new projects in Oregon — not only because they're making some of the finest wines out of the Gorge but also because they're experimenting with grapes not usually seen in the states like this thrilling Mencía. Originally from the Cantabrian mountains of northern Spain, this distant cousin of Cabernet Franc has some of that same spicy, herbaceous character well known in its more famous kin, but with an undercurrent of umami and deep, plummy fruit.

BOTTLED RED WINES

RED

GAMAY

LA CLARINE FARMS 0.75L 49

WITTERS VINEYARDS
SIERRA FOOTHILLS, CALIFORNIA

A "recovered biodynamic" farmer, this is a truly exceptional property that practices Masanobu Fukuoka's famed no-till and minimal intervention farming – a sweet spot between biodynamics, permaculture, and no-till that leads to wines intensely evocative of these beautiful hills in the Sierras and wines made with effectively no manipulation, brimming with life and energy. This wine stands comfortably side by side with the greats of Beaujolais – the poise of Métras, the power of Foillard – in all its juicy exuberance.

PINOT NOIR

BROOKS 0.75L 75

HOPEWELL ESTATE
WILLAMETTE, OREGON

Biodynamically no-till dry-farmed – rarely do the farming stars align in such a way! The team at Brooks has been pushing the envelope for decades, and now produce a world-class lineup of brilliant Pinots among many others. Clones come into play with their wines more than many – and the power of Dijon clones 777 and Pommard come into the foreground here, with subtle spice and perfume from the old Swiss (and Willamette!) Wadenswil clones providing lift and balance. Think black cherries meet mace and rooibos tea in a forest, swaddled in elegance.

DRUM CANYON VINEYARD 0.75L 115

DIERBERG DRUM CANYON VINEYARD
SANTA MARIA VALLEY, SANTA BARBARA, CALIFORNIA

Biodynamically farmed, this sea spray and spice-accented Pinot comes from their home vineyard in the cool Santa Maria Valley. Perfectly ripe cherry and red plum are backed up by notes of hibiscus and red tea, supported by judicious oak.

PORTER CREEK 0.75L 125

RUSSIAN RIVER ESTATE
SONOMA, CALIFORNIA

Biodynamic since long before it was in vogue, at the time when the rest of the Russian River was chasing ripeness and extraction George (and later, Alex) Davis stayed the course, making wines in a classic, restrained, old-world style. This wine comes from one of the original vineyards planted by Alex's father and now grows 45+ year old Chardonnay and Pinot Noir.

VESPIDAE 0.75L 125

J.K. CARRIERE
WILLAMETTE VALLEY, OREGON

An older bottling of Pinot Noir from a cooler vintage. The elegant lean red fruit is a lovely choice for the table. Winemaker Jim Prosser established the winery in 1999. He has a severe allergy to wasps (also known as Vespidae) and features the insect on the label.

PINOLI VINEYARD 0.75L 125

DOMAINE ANDERSON PINOLI VINYARD
ANDERSON VALLEY, MENDOCINO, CALIFORNIA

Domaine Anderson is the California arm of the great Louis Roederer house, the single most important biodynamic farmer in all of Champagne. This cool coastal site yields wine laden with kombu and salt air on the finish behind crunchy, cool-climate pinot noir fruit. A stalwart of quality since its inception and biodynamically farmed for over a decade, the wines of Domaine Anderson are the vanguard of the best-yet-to-come in California. A wine of savour and versatility.

BREAKING GROUND 0.75L 130

ADELSHEIM VINEYARD
WILLAMETTE VALLEY, OREGON

One of the first families of the Willamette Valley, David "The Pope" Adelsheim thought after 25 years it might be time to switch things up for a change – thus, the "Breaking Ground," the first new bottling from Adelsheim in decades. One of the pioneers of Chehalem Mountain, this is the balanced goldilocks zone of the Willamette – not quite the gossamer tannins of Eola-Amity, some of the fruit of Yamhill and more than dash the density of Dundee, this is a wine of exuberant hedonism. Violets and plums mingle with slight rose hip earthiness in one of the most beautifully balanced bottles of Pinot to be had. If you haven't tried the wines of Willamette yet, this is your perfect starting point.

BOHAN-DILLON 0.75L 130

HIRSCH VINEYARD
FORT ROSS-SEAVIEW, SONOMA, CALIFORNIA

A "young"-vine selection from the famed Hirsch ranch out in Fort Ross-Seaview, this wine is blended from the youngest parcels (20 years at minimum – a far cry from the rest of California's young' vines) and the silkiest, smoothest barrels thereof. It's alluring fruit and gossamer texture invite youthful enjoyment as much as the exuberance of its fruit, but don't discount its undercurrent of rich earth – as much from the varied marine and volcanic terroirs as its wind-whipped slopes – and no less still its incredibly precise biodynamic farming.

HOME VINEYARD 0.75L 188

CLOS SARON
SIERRA FOOTHILLS, CALIFORNIA

When Gideon Beinstock left Renaissance in the 1990s, he set out to craft his own vision of world-class wine in the Sierra Foothills – and has been making legendary, minimal intervention, ethereal pinot noirs ever since. He even took the ambitious step of re-planting part of the vineyard on its own roots, and these now-old vines of Pinot, standing up like soldiers in the hills, vindicate his ambitions with every bottle.

POMARIUM ESTATE 0.75L 190

PEAY VINEYARDS
WEST SONOMA COAST, SONOMA, CALIFORNIA

Vanessa Wong makes some of the most structured, perfumed pinot noirs in California. The Pommarium is their most structured cuvée, offering rich structure to balance its elegant fruit and is named in honor of the apple orchards that once stood on their cool, Pacific coastal site.

WENDLING VINEYARD BLOCK 0.75L 233

LITTORAI WENDLING VINEYARD BLOCK E
ANDERSON VALLEY, MENDOCINO, CALIFORNIA

Ted Lemon is one of the undisputed greats of the New California. Hired in 1982 as the first American to manage a Burgundian domaine, his experience at Roulot shapes his subsequent winemaking philosophy – that great wine is made, first, in the vineyard. The Wendling vineyard is the northwesternmost, most coastally-influenced, coolest vineyard in the whole of the Anderson Valley AVA, with all the concomittant sea brine and truffle flavors that entails. Expect chiselled acidity, deep savour, and salient fruit.

BISHOP'S CREEK VINEYARD 0.75L 275

NICOLAS-JAY
YAMHILL-CARLTON, WILLAMETTE VALLEY, OREGON

One of the last own-rooted vineyards in the Willamette Valley, Bishop's Creek is biodynamically farmed by the even more dynamic duo of Jay Boberg (the music producer responsibly for signing into fame folk like the Dead Kennedys, R.E.M., and The Go-Go's) and Jean-Nicolas Méo (of Domaine Méo-Camuzet fame in Burgundy). With some of the finest fruit in the valley and the nuanced care of Jean-Nicolas it is no wonder this pair is producing some of the wines out of Willamette today. Blue plums meet red cherry against a pot pourri and red tea backdrop before finishing with the sweet compost aromas of land well-cared for.

MORE →

RED

ZINFANDEL

END OF NOWHERE 0.75L 58
PHANTOM LIMB
SIERRA FOOTHILLS, CALIFORNIA

Carbonic Zinfandel is certainly not your typical California Zinfandel. A far cry from the heavy, jammy, and hot stereotype, this is refreshing and delicious. Sourced from the Baldinelli Vineyard in Shenandoah AVA, the soils are sandy loam.

RUSSIAN RIVER 0.75L 111
LIMERICK LANE
WEST SONOMA COAST, SONOMA, CALIFORNIA

From old-vine vineyards planted at the beginning of the 1900s in this quiet corner of the Russian River comes this opulent and hedonistic Zinfandel positively exploding with ripe fruit and floral spice character, well framed by oak. If all Zins were this good, there'd be no naysayers.

CABERNET SAUVIGNON

RED MOUNTAIN ESTATE 0.75L 115
DOMAINE MAGDALENA, RED MOUNTAIN ESTATE
RED MOUNTAIN COLUMBIA VALLEY, CALIFORNIA

Welcome to the Ghost of Cabernet Future — own-rooted, biodynamically farmed Cabernet from one of the most famed terroirs of Washington — Red Mountain — fermented with native yeast and aged in all American, predominantly neutral oak so as not to shade the fruit and flavors of terroir. Even the bottle tells you from first glance that this is not your typical American Cabernet — Maggie chose to bottle in Burgundy bottles rather than the more traditional Bordeaux shape. This has been one of my favorite domestic wines I have tasted in the past few years and shows that sometimes, with the the right combination of people and place, you don't have to compromise.

SPENCER ESTATE 0.75L 122
ELIZABETH SPENCER, SPENCER ESTATE
NAPA VALLEY, CALIFORNIA

A wine of power from valley floor fruit, this wine is stunning with its density, chew, and flinty finish surrounded by lush currants and blackberry fruit. This wine shows the heights achievable when the classic style of the Napa Valley is combined with world-class farming.

EVANGELHO VINEYARD HERITAGE RED 0.75L 155
BEDROCK WINE COMPANY
SONOMA, CALIFORNIA

The brainchild of Morgan Twain-Peterson, MW, and Chris Cottrell these wines honor the traditions of Sonoma in all their glory — organic farming, whole-cluster fermentations, and native yeasts to generate wines of savour, perfume, and structure. The Bedrock Vineyard was originally planted in 1854 by none other than William Tecumseh Sherman (of "Sherman's March" from Gone With the Wine, among other infamy) and consists of the old Italian heritage "mixed black" planting — a field blend of fiery things like Zinfandel interspersed with Alicante Bouschet, Carignan, Mataro (the Mourvèdre of Provence) and many others. Except savor, balance, and concentrated fruit from these 125+ year old vines that speak as much to the many generations and legacies of California winemaking as they do to this old, bare rock site.

RUTHERFORD 0.75L 199
ZD WINES
NAPA VALLEY, CALIFORNIA

One of the early pioneers of integrated, organic farming in the Napa Valley, ZD has been certified organic since 1999 — but it doesn't stop there. They host owl boxes, bee hives, are largely solar powered and support other alternative energy sources as part of a total vision of sustainability. The wines show classic Napa style — rich plum fruit and dark chocolate oak with a hint of sage — but an enhanced mineral signature from their organic farming.

CABERNET FRANC

WATSON RANCH 0.75L 125
ARNOT-ROBERTS
NAPA VALLEY, CALIFORNIA

Light and elegant, this organically-farmed Cabernet Franc comes from a rare parcel of clay on limestone — sound familiar? This is the same recipe as some of the greatest Bordeaux produced in Saint Émilion, and this wine delivers that same serene sense of poise, where no element — fruit, spice, or wood — is out of balance but instead fits together in a vision of elegance and plums.

GRENACHE BLENDS

CEP 0.75L 78
PEAY VINEYARDS
SONOMA COAST, CALIFORNIA

The Peay's began farming this remote parcel organically in Annapolis, just a few miles off the Pacific coast, in the early 1990s. A fog-kissed site that grows some of the coldest climate syrah and roussanne in north America, their Chardonnays routinely give Puligny-Montrachet a run for its money in crystalline precision and purity of fruit. This wine gives you the best of both worlds — French style and restrained California fruit.

SYRAH 0.75L 85
BEDROCK WINE COMPANY
NORTH COAST, CALIFORNIA

As Rhône-inspired a Syrah as ever was made in California, this blend from across Sonoma County shows as much meat, black pepper, and olive tapenade as the finest offerings from Crozes-Hermitage or Saint-Joseph.

FIELD BLENDS AND MORE

QUEEN OF THE SIERRA BARBERA/ TROUSSEAU 0.75L 58
FORLORN HOPE
SIERRA FOOTHILLS, CALIFORNIA

Ever the underdog, even the winery's name is a call to arms against impossible odds — the old Dutch "verloorn hoop," meaning the band of soldiers who volunteered to be first into the fray against impossible odds. This wine is a blend of the smorgasbord of grapes grown in their estate Rorick Heritage vineyard — everything from Barbera to Tempranillo and Mondeuse in between. The wine is a lightning bolt of fresh, zippy fruit and dusty rocks from its combination of schist and limestone soils with a nuanced texture from its accomplished troop of cultivars.

OLD VINE CARIGNAN 0.75L 77
PORTER CREEKY
MENDOCINO, CALIFORNIA

Biodynamic superstar of the Russian River Valley, Porter Creek has long bucked the trends towards ever greater richness and ripeness, instead making wines of purity and focus. This old-vine (planted in 1939!) organically-farmed Carignan comes from a vineyard just outside Hopland in Mendocino and pays homage to northern California's Italian immigrant roots who brought everything from Barbera and (perhaps more famously) Zinfandel to these rugged hills. Bright acidity and crunchy tannins nested in tangy red fruit.

TROUSSEAU NOIR 0.75L 108
EYRIE VINEYARDS
DUNDEE HILLS, WILLAMETTE VALLEY, OREGON

The famed, tangy, tough-to-grow red of the Jura in eastern France, Jason Lett became the first to plant the grape in Oregon in 2012. Bright and refreshing, light in body but full of complexity, this organically farmed, native yeast-fermented, no sulfur-added wine is as natural as they come — yet quintessentially refreshing. Soft tea and hibiscus aromas play joyfully with tangy white raspberry and loamy earth.

MENCÍA 0.75L 110
ANALEMMA WINERY
COLUMBIA GORGE, OREGANO

Regenerative and biodynamic from the outset, Analemma is one of the most exciting new projects in Oregon — not only because they're making some of the finest wines out of the Gorge but also because they'e experimenting with grapes not usually seen in the states like this thrilling Mencía. Originally from the Cantabrian mountains of northern Spain, this distant cousin of Cabernet Franc has some of that same spicy, herbaceous character well known in its more famous kin, but with an undercurrent of umami and deep, plummy fruit.
